

Cantab Connect Research Depression

The Cognitive Assessment System for Academic Studies

Cantab Connect Research Depression is the cloud-based cognitive assessment and data collection system for precise, validated and objective measurement of brain function in studies researching depression.

Product overview:

- ✓ Under 45 minutes per subject
- ✓ Repeatable assessments
- ✓ Standardized testing
- ✓ Automatic scoring

Measures include:

- Episodic memory
- Attention
- Executive function
- Sustained attention
- Emotion recognition

Key features

Touchscreen tests increase precision and ease of use.

Highly sensitive to cognitive impairment, drug effects and changes over time.

Objective and translational Cantab tests are independent of language and cultural bias, ideal in multi-national studies.

Adaptive test versions for patients and healthy volunteers.

The Cantab Connect Cloud

Access secure real-time data from multiple testing devices and sessions anytime, anywhere via the cloud. Automatic data scoring and monitoring improves quality and efficiency.

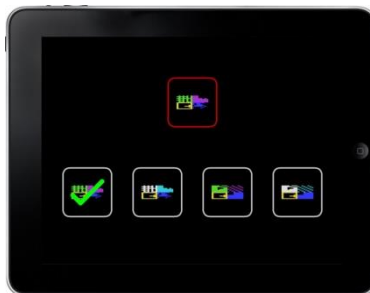

Depression test panel

Our recommended battery for testing cognitive domains of importance in depression.

Planning

CANTAB One Touch Stockings of Cambridge task.

Visual Recognition Memory

CANTAB Delayed Matching to Sample task.

Emotion Recognition

CANTAB Emotion Recognition task.

Working Memory

CANTAB Spatial Working Memory task.

Sustained Attention

CANTAB Rapid Visual Information Processing task.

Cantab Connect Research Depression

Highly sensitive to cognitive dysfunction in depression

Cantab Connect Research Depression shows moderate impairments in sustained attention, memory and executive function observed in depression.

Abbreviated from Rock et al., (2014)

Discover the benefits of connected research

Increase the impact of your studies

Cantab Connect enables objective measurement of cognitive performance linked to specific neural networks. The assessments have proven sensitivity to disease related impairment and change over time caused by biological and environmental factors giving your research added credibility, validity and impact.

Save time and costs

Cantab studies are easy to set up and quick to administer. Assessments can be conducted without formal training and data is instantly captured, scored and stored in a private cloud for real-time monitoring of your study's progress.

Perform research you can rely on

Cantab is used in academia, healthcare and pharmaceutical clinical trials as the gold standard in neuropsychological measurement. The tests are validated by over 1,600 peer-reviewed papers which have been cited over 160,000 times.

Rely on CANTAB expertise

USED TO ASSESS
250,000+
subjects

IN OVER
80
countries

TESTING IN
800+
universities

Customer satisfaction

"We require cognitive measures that are reliable, well validated and easy to administer. Cantab is the obvious choice."

Institute of Psychiatry, King's College London
